Analysis

Magical Moments. If you could do anything with your child, what would it be? Accomplished clinicians can create in the moment solutions to make that dream a reality.

BIG Fish in a SMALL pond. At OTR, the directors will know all the endless abilities of your child, celebrate your accomplishments and be dedicated to your program. Each OTR family is extremely special to us.

Connecting the Dots. The Clinical Leads connect all the pieces. They advocate with you and keep FSCD up to date on your priorities. We strongly believe the coordination of your program requires the finesse of a clinician with vast knowledge and experience.

Over the Rainbow Family-Centred Pediatric Services (OTR) is a Family Supports for Children with Disabilities (FSCD) approved service provider. We offer supports to children of all abilities from birth to 18 years of age in their home and community environments.

At OTR making RainBows is our specialty

We are fascinated by rainbows and drawn to their promise of a brighter future. To us, they are a metaphor for hope and belief.

But there is much more to it than that. A colourful fact that you might not yet know is that although rainbows seem elusive and made by magic, scientifically speaking, creating them is really not that hard. **You just need the courage to dream alongside our proven formula below.**

One Size DOES NOT Fit All. Only highly skilled clinicians could deconstruct evidenced-based approaches to create an exclusive program for your child. Just as no two people see exactly the same rainbow, no two programs at OTR will ever be the same.

Building Bridges. Helping your child develop strong emotional attachments with you and other important people is our ambition. We do not want to replace these natural relationships with paid relationships and therefore introduce aide supports very responsibly into your program.

Lead Architect. We never want to replace your natural authority as a parent. You are the expert of your child and we want to keep decision-making where it belongs – with you, the family.

No Boundaries. Clinicians from your team will share roles and cross discipline boundaries in considering each one of your goals. This teamwork is the strength of all our programs and OTR ensures you always have the team that you need.

See It To Believe It. There will be times that you wish you had your team right beside you to share a moment good or bad. OTR has the capacity to capture these moments through secure user-friendly video uploads that are easily shared with your team.

Noteworthy Service. The majority of our referrals come from families and others that know and endorse our work. Our service plans have also been selected by FSCD as a best practice teaching tool for parents, caseworkers and other service providers.

Setting Big Dreams. We work with your family to set big dreams and find your path to the pot of gold at the end of your rainbow.

**Our vision is a world
where the “dreams that
[families] dare to dream
really do come true.”**
